Henry LaBouchere Tells the British
His Predictions Realized.

ENGLISH TRADE GONE

He Says America and Germany Are
Securing All Business of Profit
While England Is Building
up Trade for Them.

New York, May 1.—Henry LaBouchere, in this week's Truth, under the heading of "Morganeering and the Moral," tells the British nation, says a Herald despatch from London, that its supremacy in trade and commerce is not only threatened but doomed, and that it will take all the best efforts of which the empire is capable to prevent a retrograde movement, which, if it begins, will increase year by year. Mr. LaBouchere says:

"To the impartial observer it is a trifle amusing to watch the perturbation of John Bull at the march of American capitalism. For a generation or two past the gospel of salvation of mankind by the agency of British capital has been preached with sincere conviction. Whether it was a dying nation in Europe or Asia, a rickety republic in South America, an unclaimed region of Africa, peopled by idolaters and cannibals, or even a poverty-stricken British colony, the means of regeneration were always the same—let British enterprise exploit the patient thoroughly and there will be an end to all his diseases, political, economic and social.

"For fifty years we preached this gospel and acted up to it religiously. Now comes a little turning of the tables.

"With a much larger population and immeasurably greater natural resources, the United States offers a field for the accumulation of greater wealth than we can ever aspire to.

"Americans, in their turn, now aspire to regenerate the world by American capital and American enterprise. They practice upon the doctrine which we so long applied to the rest of mankind. Lastly—for the present—they lay sacred hands on the shipping, by means of which 'Britannia rules the waves.'

"No wonder John Bull is in a comic state of consternation. Instead of the exploiter he is becoming the exploited.

"For about twenty years we have been beset with a craze of acquiring in the most out-of-the-way parts of the world new openings for British capital and new markets for British goods. The craze has colored all our national thoughts and policy.

"While we have been pursuing this phantom what has the foreigner been doing? He, too, seeks an opening abroad for his surplus capital and a foreign market for his surplus goods, and where does he first find them? In England.

"While we seek to extend the area of our commerce and our investments, by acquiring control of countries which have no population or of people who have new wants, the mariners and investments of America and Germany, find in this country the finest opening in the world. While we sink millions on the construction of railways throughout the African continent, which cannot yield a return within the life of the present generation, or perhaps, the next, the American capitalist discovers a remunerative investment for his millions in improving the means of locomotion in London.

"While we spend countless millions in annexing vast tracts in Asia and Africa, and maintaining armies to defend them, with the view of supplying a penniless population with goods from Manchester and Birmingham, our German and American competitors supplant us in our own country.

"Individual fools have, often enough, dropped the substance to grasp its shadow but never before has a whole nation deliberately committed itself to this folly.

"Our supremacy in trade and commerce is not only threatened, but doomed.

"Yet, by utilizing to the best advantage our resources in raw material, capital and labor we can hold our own even if we are forced to see Germany and America increase their output faster than we can. It is only by the stupidity of squandering our capital in foreign countries, overlooking the opportunity of employment at home, that foreign capital can supplant British in any home industry.

"But at the present crisis of our economic history, what are the objects which chiefly occupy minds? The regeneration of South Africa by the introduction into that accursed land of British capital and labor, the expansion of our army at the expense of the labor market, squandering time, money and energy on the empty ostentation of the coronation ceremonies, which will suspend industry, dislocate trade and divert public thought from matters of pressing and vital importance.

"At the moment while we are thus engaged Mr. Morgan and his colleagues

descend upon us, seeking what they may devour.

"Almost within an hour of the king's feast, come forth the fingers of a man's hand and write upon the wall. It needs no prophet in this case to interpret the writing. It is easy to read the warning and not difficult to accept and act on it.

"Will we attend to it at once, or shall we finish our wine and think about the Medes and Persians after the dinner.

MOODY TAKES CHARGE.

He Is Now Secretary of the Navy in the Place of Long.

Washington, May 1.—William Henry Moody, the new secretary of the navy, took the oath of office at the navy department at 9:35 o'clock this morning. The oath was administered by E. P. Hanna, solicitor of the department.

Those present besides retiring secretary, Mr. Long, were Assistant Secretary Darling, former Assistant Secretary Hackett and Representatives Roberts, McCall, Lawrence and Green of Massachusetts.

Entire personnel of department was then presented to Mr. Moody, the clerk at same time bidding Mr. Long farewell.

DEVASTATED BY TORNADO

Over Four Hundred Persons Killed and Crops Ruined in British India.

Calcutta, May 1.—A tornado has devastated the city of Dacca and adjoining towns. Four hundred and sixteen persons were killed; crops ruined throughout the district.

Dacca is a city in Bengal and famous in the history of British India. It is situated 150 miles northeast of Calcutta. In the seventeenth century it was the capital of Bengal. In 1800 it had a population of 200,000 and was noted for its product of fine muslins which were known as "woven wind."

Growing imports of Manchester cottons ruined its industries, however, and by 1891 the population had dwindled to 82,000.

CLASH WITH STRIKERS.

Many Persons Killed in Central Russia in the Encounters.

Copenhagen, May 1.—A dispatch to the Politiken of this city from Russia announces the labor population of the whole district between Moscow and Vladimir, central Russia, is in revolt.

There has been numerous encounters between working men and troops and many persons have been killed or wounded.

The Uhlan regiment, commanded by Col. Morosoff, refused to act against the workmen.

Patterson Modifies His Resolution.

Washington, May 1.—At the conclusion of business in senate the resolution offered Wednesday by Mr. Culbertson of Texas, calling for information with reference to recent orders issued in Philippines, was adopted.

The resolution offered by Mr. Patterson of Colorado, which precipitated a two-hours' debate Wednesday, was laid before the senate. Mr. Patterson modified his resolution to that it requested the president to cause the secretary of war to immediately cable Major Gardener to return to the United States without delay to give testimony before the Philippines committee.

Temporarily the resolution was laid aside and consideration was resumed of the bill providing for the purchase of Rosebud reservation in South Dakota from the Sioux Indians.

Two Years for a Farmer.

Weatherford, Tex., May 1.—In the case of J. P. Davis, a farmer residing near Brock, in this county, tried in the district court here on a charge of forgery, the jury found the defendant guilty and assessed a penalty of two years in the penitentiary. This was the third trial of this case, the two former trials resulting in a hung jury. The defendant was charged with having raised the price on a cotton ticket at this place during the fall of 1900.

Fire at Phoenix.

Phoenix, Ariz., May 1.—Fire started here late Wednesday night in the store of E. A. Ross, tailor, and at daylight was still burning, though under control. No accurate estimate of the damage can be made at this time, but it will amount to many thousands of dollars. Ten business houses were burned, including S. Vanderberg's jewelry store and the store of Buxton & Co.

Thief Dressed as a Brakeman.

Fort Worth, May 1.—A thief carrying a lantern, dressed as a brakeman, entered the south bound Katy while at Union station Wednesday night and threw a grip out of a Pullman. Later he went out to get the grip and was endeavoring to make off with it when a watchman crowded him. He lost most of things in making his escape. The property belonged to James S. Bailey, vice president North American Telegraph and Telephone company.

Confederate Soldiers Grateful.

Austin, May 1.—Resolutions have been adopted by members of the Confederate home thanking Sanger Bros. of Dallas for kindness in providing free transportation to and from Dallas for the reunion for 150 old soldiers.

The Pittsburg Strike.

Pittsburg, May 1.—May day was ushered in with strikes of most building trades for reduction in hours, more wages and adjustment of trade conditions. It is estimated between 12,000 and 15,000 men are out.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Wilson-Jenkins Drug Co.'s store. Get Green's Special Almanac. dtd

WASHINGTON NOTES.

Senate Gets into a Warm Discussion Over a Witness Wanted.

IT IS STILL PENDING

Mr. Patterson Charged That Majority of Philippines Committee Endeavor to Keep This Witness from Testifying.

Washington, May 1.—Soon after the senate convened Wednesday, the consideration of the Philippines government bill was resumed and Mr. Patterson of Colorado offered a resolution for which he asked immediate consideration, directing the secretary of war to cable Major Gardener, formerly civil governor of the province of Tayabas to return to the United States to appear as a witness before the Philippines committee.

In the preamble to the resolution, Mr. Patterson declared that the Philippine committee decided by a "partisan vote," to refuse to ask that Major Gardener be called to appear as soon as he could come to the United States.

Mr. McComas raised the question that it was not proper to say that the committee had divided upon "partisan" lines.

Mr. Allison said he was satisfied that Major Gardener would reach Washington long before congress adjourned, and there would be ample time to get his testimony.

Mr. Tillman indicated his belief that information was being "smothered," and he demanded to know from Mr. Lodge whether he proposed to drag the senate into a vote upon this measure.

Mr. Lodge replied laughingly that he wished to let the dragon the senate into a vote on the measure, but Mr. Tillman knew he could do nothing of the kind. He believed it would be preposterous for the senate to wait on a single witness.

"Of course," said Mr. Tillman, "everything can go along leisurely, if the committee is to smother information."

Mr. Allison pointed out that nobody objected to the testimony of Mr. Gardener. His regiment would leave the Philippines soon. He intimated that Maj. Gardener was particularly anxious to be a witness.

Mr. Carnack of Tennessee declared that the report made by Major Gardener was so startling and important that the secretary of war had endeavored to keep it from the senate and from the American people. He insisted that unless the proposed resolution was adopted, Major Gardener surely would not get to Washington before congress adjourned.

Mr. Culberson of Texas explained that the minority of the Philippines committee, especially desired Major Gardener's testimony, because his statements had been challenged by Governor Taft and General MacArthur.

Mr. Lodge, the chairman, said that Major Gardener ought to appear before the committee. He suggested sarcastically that Major Gardener was particularly an important witness, because he seemed to agree in some respects with the minority. If the testimony of one provincial governor was desirable, that of the 30 more provincial governors probably would be.

The resolution was not acted upon. The house passed the agricultural appropriation bill and began consideration of the District of Columbia appropriation bill, the last but two of the regular supply measures.

WILL ENTER ST. LOUIS.

Rock Island Road to Run into That City from Union.

St. Louis, May 1.—M. A. Lowe, general attorney of the Chicago, Rock Island and Pacific railroad, stated today that his road had purchased the St. Louis, Kansas City and Colorado railroad, operating between St. Louis and Union, Mo., and had authorized the Mercantile Trust company to negotiate for the purchase of the Wiggins Ferry stock at \$500 a share. With the purchase of the St. Louis, Kansas City and Colorado railroad, the Rock Island secures right of way into St. Louis, and with the acquisition of the property of the Wiggins Ferry company, ample terminal facilities will be had.

Mr. Love declined to state the price paid for the Colorado road, negotiations for which, he said, had been going on for several weeks. He said the Mercantile Trust company had secured an option on a majority of the stock of the Wiggins Ferry company, the purchase price of which would be more than \$5,000,000 recently mentioned.

Who Did It?

Who sympathized with you when your little girl was sick? Was it your merchant or was it Sears, Roebuck & Co.? Who carried you last winter when you were out of a job and had no money? Was it Montgomery, Ward & Co., or was it your home merchant? When you want to raise money for the church or some needy person in town do you write to the Fair Store in Chicago, or do you go to your home merchant? How much does Siegel, Cooper & Co., give toward keeping up the sidewalks of the town or paying the minister's salary? When you were sick how many nights did Hibbard, Spencer, Bartlett & Co., sit up with you? When your loved one was buried was it your home merchant that dropped the tear of sympathy and uttered the cheering word, or was it Marshall Field & Co., Sanger Bros., or some other big concern away from home? When anything important occurs in the history of your life, or in your neighborhood, is it the Louisville Courier-Journal, the Sunny South or your home paper, that you look to for mention of it?

Think about these things before sending your money from home.—Exchange.

FAVORABLE OUTLOOK.

Peace May Yet Be the Outcome of Con-
ferences in Transvaal.

Pretoria, May 1.—In pursuance of an
understanding reached by the Boer
delegates at the conference recently
held here, the delegates are busy visit-
ing the burghers in the field. General
Botha, Acting President Schalkburger,
General Delarey, General Lucas Meyer,
commander-in-chief of the Orange Free
State forces; Secretaries of State
Reitz of the Transvaal, Mr. Steyn, ex-
-president of the Orange Free State,
and General DeWet have each taken a
separate district for the purpose of
conferring with the commandos as rap-
idly as possible. After these confer-
ences a general meeting has been ar-
ranged for at Vereniging, Transvaal,
May 15, when a final decision is ex-
pected.

It is believed among the Boers who
have surrendered and other well-in-
formed persons that the peace outlook
is favorable if the delegates place the
situation fairly before them.

Cost of South African War.

London, May 1.—An official esti-
mate of the total cost of the South

Orange, Tex., May 1.—Mr. Smith,
president of the Florida Paper Mill
company, has been in the city several
days looking for a location for his
machinery, and finally settled upon a
piece of ground in the western portion
of town that is most favorably located
for a factory. It is proposed to bring
the machinery from Pensacola, erect
all needed buildings and get the plant
in operation early in the fall. The
plant will give employment to 60 per-
sons.

Election of Officers.

H. D. Perkins of Memphis, Tenn.; sec-
retary and treasurer, Robert Gibson of
Dallas (re-elected).

Poolrooms Lose Money.

Louisville, Ky., May 1.—Two Louis-
ville pool room proprietors and the
local police are convinced that the
rooms Wednesday lost \$1500 to wire
tappers, though one room subsequently
got back \$700, and were only prevented
from losing many times that amount
by the refusal of the rooms to pay un-
til official news came in.

Illinois Sails for England.

New York, May 1.—The United
States battleship Illinois has sailed
with Rear Admiral A. S. Crownin-

the European station and take part in
the naval ceremonies at the corona-
tion of King Edward. She is com-
manded by Captain George A. Con-
verse.

Storm Near Alvord.

Alvord, Tex., May 1.—A severe wind
and hail storm passed half a mile north
of town Tuesday, blowing down several
houses and barns. No one was seri-
ously hurt. The damage by hail to
vegetation was very severe, but it only
covered a strip about half a mile wide.

ference in Transvaal.

Pretoria, May 1.—In pursuance of an
understanding reached by the Boer

MANY BRANCH LINES.

The International Provides for Extensions to Several Points.

Houston, May 1.—The International and Great Northern railroad has filed with the secretary of state an amended charter, which provides for several extensions in different parts of the state, totaling 296 miles. The extensions provided for are a branch from Navasota to Oakwoods, 80 miles, through New county; from Oakwoods to Waxahatchie, 80 miles, forming a connection with the Fort Worth line; from Italy to Dallas, 29 miles, a branch of the Fort Worth extension now being built; from Neches to Coltharp, 45 miles; from Palestine to Rusk, 30 miles. Palestine is the headquarters of the company, and the state iron foundry is situated at Rusk. From East Columbia to Bay City, 31 miles. This branch will run through the country where the state is developing the sugar industry.

BEEF IS TOO HIGH.

People Refuse to Eat Dressed Meat and Packers Feeling the Effects.

Chicago, May 1.—The business of Chicago packers has been staggered by the refusal of the people of the country to eat meat at the prevailing high prices, according to the Chronicle.

The demand for dressed meats during the last few days has fallen off 33 1-3 per cent, and the discharge of men from the packinghouses is general. According to admissions of prominent packers, this alarming condition prevails all over the yards, and the packing business is in a state of demoralization such as it has not experienced in years.

The shipments of dressed beef from the yards have so decreased during the last ten days that cars are piling up in the railroad yards.

Shipments of cattle have been curtailed by the packers and every branch of the great industry is suffering from the present critical situation. The only hope of restoration is in cutting the prices.

Miles May Not Be Retired.

Washington, May 1.—It is now believed that no further consideration will be given by the president to the subject of retiring Lieutenant General Miles so long as the commander of the army continues his present attitude of reserve, and that the case will be allowed to remain as it is, unless General Miles himself should do something or take some action to revive the recent determination of the president.

Accidentally Killed.

Vinita, I. T., May 1.—Mrs. P. J. Ryan of Claremore some time ago took an orphan boy to raise. Tuesday a nephew of hers about the same age of orphan boy was playing with a gun that "wasn't loaded." The gun was accidentally discharged and the bullet hit the orphan boy squarely in the head, tearing his brains out and killing him instantly.

Divorced and Remarried.

Lake Charles, La., May 1.—Rev. E. L. Wells, a Methodist minister and until recently in charge of a church, procured a divorce from his wife here, and six hours later married Miss Bertha Cropper of this city. The attorney who procured the divorce was also a minister, and performed the wedding ceremony. Rev. Wells is now farming near Jennings.

Stabbed to Death.

Oklahoma City, O. T., May 1.—In Wogan's railroad camp near Bridgeport, Sam Barnett was stabbed five times with a knife, producing instant death. The murder was the result of a practical joke and makes the fifth committed in that vicinity in about six weeks. The murderer escaped.

Child Instantly Killed.

Wichita Falls, Tex., May 1.—While Benjamin Snell was moving with his family into town, when three miles from town, in coming down a short hill, he and his family were thrown from the wagon. A 3-year-old child was instantly killed. Mr. Snell was badly injured and his wife and baby slightly injured.

Receipts Falling Off.

Austin, May 1.—The receipts last month in the department of state amounted to \$78,310, against \$106,000 last April, a decrease of \$27,690. Nearly all of the April receipts are payments of franchise taxes and the decrease is due to the falling off in the number of charters filed.

Shooting Near Hutchins.

Dallas, May 1.—Andy Shook, who lives near Hutchins, was shot through the stomach at his home Tuesday night, and may die. Deputy Sheriff Allen Seals is in custody of his brother officers as the result.

Chief Engineer Dade Dead.

Philadelphia, May 1.—Chief Engineer Francis Cadwallader Dade, United States navy (retired), died here of heart disease.

SUGAR INVESTIGATION

President Havemeyer Testifies Before Senate Subcommittee.

NO CORNER IN CUBA

All the Sugar His Company Has Purchased in Cuba This Year Would Not Run His Refineries for Two-Thirds of a Month.

Washington, May 1.—Inquiry into the present holding of Cuban sugar and sugar lands, ordered by the senate, has begun by the subcommittee on Cuban relations.

President Henry O. Havemeyer, of the American Sugar Refining company, was the first witness and all members of the subcommittee, Messrs. Platt of Connecticut, Burnham and Teller were in attendance. Senator Patterson also was present. The others present with Mr. Havemeyer were Arthur Denner, treasurer of the company, and Henry C. Mott, its raw sugar buyer. All of them were sworn.

Replying to the questions by Senator Platt, Havemeyer said his company was generally known as the Sugar Trust and that its refineries are located as follows:

In New Jersey, one; New York three; Massachusetts, two; Philadelphia, two; and New Orleans, one.

"Will you," the senator asked, "tell the committee how much Cuban sugar, if any, has been purchased and now held by your company?"

"Since early in February last we have purchased 50,000 tons or 256,000 bags or about 10 days' supply," replied the witness. Of that quantity 26,000 tons is now in process of shipment from Cuba. The prices paid ranged from 175 to 195, the highest prices being paid March 13, and the lowest April 22.

"Where do you buy your raw sugar?" "All over the world, in Cuba, Java, Hamburg, Trieste, British West Indies, South America, wherever sugar is grown.

Does 50,000 tons you mention represent your entire purchases in Cuba since the first of January?"

"No, we have bought all told 93,000 tons of Cuban sugars during the present year; or about three-fourths of a month's supply, our consumption being about 35,000 tons per week."

"Do you control any sugar in Cuba other than that purchased?"

"None, whatever, in any manner."

"Have you taken any options on Cuban sugars?"

"I have not."

"Have you made any advance on any Cuban sugar?"

"None whatever."

"So that you wish be understood as saying the amount you have mentioned represents your entire interest, direct and indirect in Cuban sugar?"

"That is the statement I make."

Continuing Mr. Havemeyer said the entire Cuban sugar crop is about 750,000 tons, but that much of it has been withheld from the market in view that possible tariffs corrections would be made by congress. On this account his purchases have been only about one-third average of other years.

Shot by a Discharged Man.

Guthrie, O. T., May 1.—W. H. Rush of St. Louis, foreman of the Spencer Construction company, which is building the Choctaw extension into Guthrie, was shot by a negro, who had been dismissed by Rush from the service of the company. The negro borrowed a gun, and, returning, began shooting at Rush, breaking both bones in his left leg below the knee. The other employees of the company immediately quit work and are scouring the country for him.

Doctor Kills a Marshal.

England, Ark., May 1.—Town Marshal Sam B. Weaver was shot and killed by Dr. W. E. Allen here. The right arm of Arthur Young, a bystander, was broken by a stray shot. Dr. Allen was seriously wounded in the hip by Weaver. Dr. Allen had been arrested about ten days ago by Weaver. The two men met, and after some angry words, Allen pulled his pistol and shot Weaver four times. As Weaver fell he pulled his pistol and shot Allen in the hip, then expired.

Twenty-Seven Years for a Assault.

Lampasas, Tex., May 1.—On April 24, J. F. Thornton was arrested near Lampasas on a charge of assault to outrage a 10-year-old girl, Hazel Burnette, the daughter of a transient man camping with his family in the suburbs of the city. The grand jury was reconvened by Judge Furman to investigate the charge. Tuesday the defendant was tried and a verdict rendered by the jury in ten minutes after retiring, assessing his punishment at 27 years in the penitentiary.

Eight Deaths from the Panic.

Philadelphia, May 1.—The majority of the 28 girls and young women injured Wednesday in panic at the cigar factory of Harburger, Homan & Co., resulting in the death of eight employees, suffered principally from nervousness and shock went to their homes after treatment at various hospitals. There are 10 victims still in hospitals and of these three are in critical condition.

Corrigan Much Improved.

New York, May 1.—Archbishop Corrigan is much improved and his physicians say he is well on the way toward recovery. He slept six hours during Wednesday night and when he awoke relished breakfast of solid food. He is still somewhat weak, but his strength is returning steadily.

MANY BRANCH LINES.

The International Provides for Extensions to Several Points.

Houston, May 1.—The International and Great Northern railroad has filed with the secretary of state an amended charter, which provides for several extensions in different parts of the state, totaling 296 miles. The extensions provided for are a branch from Navesota to Oakwoods, 80 miles, through New County; from Oakwoods to Waxahachie, 80 miles, forming a connection with the Fort Worth line; from Italy to Dallas, 29 miles, a branch of the Fort Worth extension now being built; from Neches to Coltharp, 45 miles; from Palestine to Rusk, 30 miles. Palestine is the headquarters of the company, and the state iron foundry is situated at Rusk. From East Columbia to Bay City, 31 miles. This branch will run through the country where the state is developing the sugar industry.

BEEF IS TOO HIGH.

People Refuse to Eat Dressed Meat and Packers Feeling the Effects.

Chicago, May 1.—The business of Chicago packers has been staggered by the refusal of the people of the country to eat meat at the prevailing high prices, according to the Chronicle.

The demand for dressed meats during the last few days has fallen off 33 1-3 per cent, and the discharge of men from the packinghouses is general. According to admissions of prominent packers, this alarming condition prevails all over the yards, and the packing business is in a state of demoralization such as it has not experienced in years.

The shipments of dressed beef from the yards have so decreased during the last ten days that cars are piling up in the railroad yards.

Shipments of cattle have been curtailed by the packers and every branch of the great industry is suffering from the present critical situation. The only hope of restoration is in cutting the prices.

Miles May Not Be Retired.

Washington, May 1.—It is now believed that no further consideration will be given by the president to the subject of retiring Lieutenant General Miles so long as the commander of the army continues his present attitude of reserve, and that the case will be allowed to remain as it is, unless General Miles himself should do something or take some action to revive the recent determination of the president.

Accidentally Killed.

Vinita, I. T., May 1.—Mrs. P. J. Ryan of Claremore some time ago took an orphan boy to raise. Tuesday a nephew of hers about the same age of orphan boy was playing with a gun that "wasn't loaded." The gun was accidentally discharged and the bullet hit the orphan boy squarely in the head, tearing his brains out and killing him instantly.

Divorced and Remarried.

Lake Charles, La., May 1.—Rev. E. L. Wells, a Methodist minister and until recently in charge of a church, procured a divorce from his wife here, and six hours later married Miss Bertha Cropper of this city. The attorney who procured the divorce was also a minister, and performed the wedding ceremony. Rev. Wells is now farming near Jennings.

Slashed to Death.

Oklahoma City, O. T., May 1.—In Wogan's railroad camp near Bridgeport, Sam Barnett was stabbed five times with a knife, producing instant death. The murder was the result of a practical joke and makes the fifth committed in that vicinity in about six weeks. The murderer escaped.

Child Instantly Killed.

Wichita Falls, Tex., May 1.—While Benjamin Snell was moving with his family into town, when three miles from town, in coming down a short hill, he and his family were thrown from the wagon. A 3-year-old child was instantly killed. Mr. Snell was badly injured and his wife and baby slightly injured.

Receipts Falling Off.

Austin, May 1.—The receipts last month in the department of state amounted to \$78,310, against \$106,000 last April, a decrease of \$27,690. Nearly all of the April receipts are payments of franchise taxes and the decrease is due to the falling off in the number of charters filed.

Shooting Near Hutchins.

Dallas, May 1.—Andy Shook, who lives near Hutchins, was shot through the stomach at his home Tuesday night, and may die. Deputy Sheriff Allen Seals is in custody of his brother officers as the result.

GERMANY COMBINING.

The Iron Foundries Are Getting Together
to Fight "American Invasion."

New York, May 2.—German cast iron
works and foundries are preparing to
form a giant combination, which will
embrace all the leading plants of the
empire, says a Berlin despatch to the
Herald.

The negotiations have progressed so
far that an agreement already has been
drawn up and signed by most of the
concerns, with the exception of the
Union foundry and several other large
works which will, however, be obliged
to enter the combination.

There will be no transfer of capital,
but the main purpose will be to do
away with competition and defend the
industry against the "American in-
vasion" and other rivaling interests, and
to increase exports.

The reichstag tariff commission will
in a few days take up the debate on the
increased tariff for machinery, agri-
cultural implements, tools and half-
finished industrial products, which will
strike more closely at American trade
than that of any other country.

Raw material interests are demand-
ing a high protective tariff to stop the
progress of the United States steel,
iron, copper, coal and raw imports,
while manufacturers again are in favor
of a low tariff, so as to admit cheap
American material.

American tools and agricultural im-
plements have revolutionized the farm-
ers and factory methods of Germany
and any attempt of the agrarians and
raw material men to exclude them will
meet with bitter resistance.

CRUSHED TO DEATH.

Two Stowaways Are Buried Beneath the
Ship's Cargo of Coal.

New York, May 2.—When the British
freight steamship Sir Richard
Grenville, from the West Indies, ar-
rived in port, Captain Jones reported
the tragic death of two West Indian
stowaways. The vessel stopped at half
a dozen West Indian ports, among
them being St. Lucia, where she coaled.
It is at this port Captain Jones believes
the stowaways, who were negroes, man-
aged to get aboard the vessel by let-
ting themselves down to the coal bunk-
ers through the coal chutes. The men
had evidently miscalculated the time
that the steamship was going to remain
at St. Lucia, and did not know the
vessel was to coal up. After they had
reached the coal bunkers, many tons
of coal were taken on board, and the
two stowaways were literally buried
alive.

Nothing was known to the captain
or crew of the tragic death of the men
until the morning of April 18. When
one of the bodies slid through the coal
chute into the furnace, while the ves-
sel was making a hard fight against
a northeasterly gale.

The sight of the body sent a shiver
through the stokers, and caused them
to temporarily quit work. Captain
Jones was notified of the discovery,
and after making sure that the stowa-
way was dead, ordered the body buried
in the sea.

Six days later, the stokers were again
horrified by another body which came
through the coal chute into the fur-
nace room. A search was then made
of the coal bunkers but no more bod-
ies were found.

national and Great Northern railroad

will also be built from Beaumont to
Orange and thence from Orange to New
Orleans, with a connection from Beaumont
to Sabine Pass. The proposed
route parallels the Southern Pacific.

CYCLONE IN IOWA.

The Towns of Bayard, Van Wert and
Weldon Suffer Loss.

Des Moines, May 2.—A cyclone
struck Bayard, Ia., at 7:30 o'clock
Thursday night. Two elevators, the
Chicago, Milwaukee and St. Paul depot
and a number of dwellings were de-
stroyed. The agent of the Chicago
Milwaukee and St. Paul railroad is
missing and is supposed to have been
killed or injured. Telegraphic com-
munication with Bayard has been
paralyzed by the storm. Details of
the disaster are difficult to obtain.

At Van Wert a funnel-shaped cloud
dropped down on the town. The wind
blew down houses and barns and up-
rooted large trees. Several people
were reported injured, but nine
killed.

At Weldon a farm house was blown
down and three children were injured.

Set Fire to the Jail.

Weatherford, Tex., May 2.—An un-
successful attempt was made to burn
the county jail at this place. Several
prisoners were in the iron cage on the
third floor of the building. Their
cries awoke Jailer Clark, who occu-
pies the first floor. He immediately
sent in an alarm to Sheriff Bratton
and others and rushed to the third
floor. The cells were filled with
smoke. All of the prisoners were let
out and taken down to the second
floor except one, Frank Duke, who
was recently sentenced to the peni-
tentiary for two years. The fire origi-
nated in a cell occupied by him and
all of his bed clothes was burned. He
was unconscious for several hours.

Davis Returns for Trial.

Little Rock, May 2.—Governor Jeff
Davis has returned from the east and
states that the object of his return
was to be here Sunday to attend the
trial of the charges preferred against
him by the discipline committee of
the Second Baptist church, if one be
held that day. The governor says
he prefers to take a change of venue
to his home church in Russellville,
but he knows of no such usage in
the Baptist church.

Opposing the Treaty.

Ardmore, I. T., May 2.—Thirty rep-
resentative members of the Chickasaw
and Choctaw tribe of Indians, among
them Richard McLish, F. Finis Fox
and Lou Seeley, dissatisfied with sev-
eral provisions in the new supplement-
ary agreement, have issued a call for
a convention to be held at Tishomingo
on May 9 for the purpose of discussing
the treaty and taking such steps as
will insure its rejection when voted
upon by the Chickasaws and Choctaws.

Methodist Bishops Meet.

Chattanooga, Tenn., May 1.—The
semiannual conference of the board of
bishops of the Methodist Episcopal
church convened in this city Thurs-
day. The bishops will go over all the
work of the Methodist Episcopal
church at this conference, and will,
among other things, permanently set-
tle the question of the presidency
of Grant university in this city and
decide upon important matters with
respect to the future of the Methodist
church in the south.

Indian Convicted of Murder.

Talequah, I. T., May 2.—In the early
part of October, 1901, the dead body
of Charles Sunday, a fullblood Chero-
kee, was found in the Illinois river a
few miles south of the city. William
Judge, also a fullblood Cherokee, was
arrested for the crime and he has just
been convicted, the jury giving him a
life sentence.

CASES NOT DISMISSED.

Conductor and Fireman Opposed to Nolle
Pros the Money Affair.

Washington, May 2.—An unexpected
move to nolle prosequere the three cases of
alleged assault growing out of the al-
tercation on a street car last week, in
which Senator Money of Mississippi,
Conductor O. H. Shaner and Truck
Foreman James E. Hooper of the Dis-
trict fire department, resulted in the
postponing of the cases in the police
court until Tuesday. After a protracted
conference between counsel for
Senator Money in District Attorney
Mullowney's office, it was decided by
them to allow the cases to drop, and
when they appeared in the police court
later Mr. Mullowney announced that
after investigating the cases on both
sides he had concluded that the ends
of justice would be subserved by dis-
missing the charges against all three
defendants. He would, therefore,
nolle prosequere them. The attorney for
Shaner and Hooper protested against
this action, and the judge postponed
a decision until next Tuesday.

GERMANY COMBINING.

The Iron Foundries Are Getting Together
to Fight "American Invasion."

New York, May 2.—German cast iron
works and foundries are preparing to
form a giant combination, which will
embrace all the leading plants of the
empire, says a Berlin despatch to the
Herald.

The negotiations have progressed so
far that an agreement already has been
drawn up and signed by most of the
concerns, with the exception of the
Union foundry and several other large
works which will, however, be obliged
to enter the combination.

There will be no transfer of capital,
but the main purpose will be to do
away with competition and defend the
industry against the "American invasion"
and other rivaling interests, and
to increase exports.

The reichstag tariff commission will
in a few days take up the debate on the
increased tariff for machinery, agricultural
implements, tools and half-finished
industrial products, which will
strike more closely at American trade
than that of any other country.

Raw material interests are demanding
a high protective tariff to stop the
progress of the United States steel,
iron, copper, coal and raw imports,
while manufacturers again are in favor
of a low tariff, so as to admit cheap
American material.

American tools and agricultural implements
have revolutionized the farmers
and factory methods of Germany
and any attempt of the agrarians and
raw material men to exclude them will
meet with bitter resistance.

CRUSHED TO DEATH.

Two Stowaways Are Buried Beneath the
Ship's Cargo of Coal.

New York, May 2.—When the British
freight steamer Sir Richard
Grenville, from the West Indies, arrived
in port, Captain Jones reported the
tragic death of two West Indian
stowaways. The vessel stopped at half
a dozen West Indian ports, among
them being St. Lucia, where she coaled.
It is at this port Captain Jones believes
the stowaways, who were negroes, managed
to get aboard the vessel by letting
themselves down to the coal bunkers
through the coal chutes. The men had
evidently miscalculated the time
that the steamship was going to remain
at St. Lucia, and did not know the
vessel was to coal up. After they had
reached the coal bunkers, many tons
of coal were taken on board, and the
two stowaways were literally buried
alive.

Nothing was known to the captain
or crew of the tragic death of the men
until the morning of April 18. When
one of the bodies slid through the coal
chute into the furnace, while the vessel
was making a hard fight against a
northeasterly gale.

The sight of the body sent a shiver
through the stokers, and caused them
to temporarily to quit work. Captain
Jones was notified of the discovery,
and after making sure that the stowaway
was dead, ordered the body buried
in the sea.

Six days later, the stokers were again
horrified by another body which came
through the coal chute into the furnace
room. A search was then made
of the coal bunkers but no more bodies
were found.

route parallels the Southern Pacific.

NOW WANT AGUINALDO

Senator Carmack Believes He Should
Be Allowed to Testify.

SUPPRESSING FACTS

Senator Culberson Produces a Letter
from the Secretary of War Which
He Says Supports Charges
Made by Mr. Carmack.

Washington, May 2.—Aguinaldo was
the special subject of discussion in the
senate Thursday. As soon as the Phi-
lippine government bill was taken up,
Mr. Carmack of Tennessee resumed
his criticism of the Philippines com-
mittee because of its refusal to call
Aguinaldo and other Filipinos as wit-
nesses. He maintained that as reflec-
tions by witnesses had been cast on
the character of Aguinaldo, he ought
to be permitted "in all decency" to
defend himself.

Mr. Carmack's position was sharply
combated by Mr. Foraker of Ohio. Mr.
McComas of Maryland and Mr. Burton
of Kansas.

Mr. Culberson of Texas, in support
of a statement by Mr. McCormack that
the war department suppressed infor-
mation and falsified the Philippines
situation, presented a letter from the
secretary of war, which he thought
was proof of the Tennessee senator's
assertion. The secretary stated in the
letter that it was not practicable to
supply the information asked for, be-
cause no special account was kept of
the Philippines war expenses, and it
would require the services of a large
force of clerks to work out the infor-
mation desired.

At the conclusion of routine busi-
ness, the resolution offered by Mr. Cul-
berson of Texas calling for information
with reference to recent orders issued
in the Philippines was adopted.

In the house Mr. Shattuck of Ohio
spoke on industrial conditions and Mr.
Gaines of Tennessee, in criticism of
conditions in the Philippines. The Dis-
trict of Columbia appropriation bill
was under consideration.

Rev. Dr. Couden, the blind chaplain
of the house, in his invocation prayed
for the restoration to health of Repre-
sentative Cummings of New York,
who is lying dangerously ill at Balti-
more.

The Burleson resolution calling on
the war department for copies of all
orders to commanding officers in the
Philippines bearing upon the opera-
tions in Samar under General Jacob H.
Smith, was adopted. A somewhat simi-
lar resolution offered by Representative
Conroy of Massachusetts was laid
on the table.

A resolution was adopted which
called on the civil service commission
for information regarding appoint-
ments, etc.

Bills were passed for the removal of
the port of entry in the Albemarle
(North Carolina) collection district
from Edenton to Elizabeth.

To authorize the United States and

Oppose School Land Sale.

Brenham, Tex., May 2.—E. Reichardt
of this city is circulating a petition
to be presented to the county com-
missioners' court objecting to the sale of
the Washington county school lands.
A large number of business men of
Brenham and numerous taxpayers of
the county outside of Brenham have
signed the petition. There are 17,000
acres of land in the tract in a solid
body located in Tom Green county. The
court has an offer of \$2 an acre for
the land, which brought forth this
protest on the part of the people.

Another Courtmartial Ordered.

Washington, May 2.—Following the
precedent set in the case of General
Smith, the president has himself,
through Secretary Root, ordered the
trial by courtmartial of Major Edwin
F. Glenn, Fifth infantry, one of the
officers referred to as a participant in
the administration of the water cure
in the testimony developed before the
senate Philippines committee recently.

A Minister Assaulted.

Crawford, Tex., May 2.—Rev. S. P.
Brown of the Methodist Episcopal
church, south, at Crawford, was as-
saulted here by a saloon man for re-
porting to the United States and state
revenue officers that he was doing
business without license. Rev. Brown
is badly bruised on the face and chest.
The courts will investigate the case.

Chicago Crew Pardoned.

Rome, May 2.—The king has pardon-
ed the officers of the United States
cruiser Chicago who have been im-
prisoned at Venice. They will be im-
mediately handed over to the United
States consul, from whose charge they
will be transferred to the Chicago,
which is ready to sail.

Hail Storm in Oklahoma.

Guthrie, O. T., May 2.—A terrible
hail storm has visited western Okla-
homa and great havoc was wrought in
its path. The scope of the storm was
at Pond creek, covered a wide area.
Wheat and fruit were greatly dam-
aged.

FUNERAL OF MRS. ADAMS.

An immense gathering of friends
of the family from Bryan college
and vicinity and from other points,
assembled at the family residence
yesterday afternoon to pay a tribute
of love and respect to the dead and
love and sympathy to the living.
The service was led by Rev. Jewell
Howard and was of marked solemn-
ity and impressiveness. The music
was especially beautiful. One of the
longest processions ever seen in Bryan,
including ninety-two vehicles,
followed the remains to the ceme-
tery.

Good, well cured hams and break-
fast bacon are better, cheaper and
more wholesome than any other
meats you can buy. The Gold Band
brand is the best.

Fortunately Bryan people have es-
caped the advance in the prices of
meats which have been made else-
where on account of the beef trust.
Franklin Bros are still selling the
best meats at the same old price.

Packing house products are the
best, most healthful and the cheapest
meats obtainable. In order to get
the best, call for Gold Band Hams
and Breakfast Bacon.

Messrs. E. O. Saunders and Murf
McCorquodale were made Master
Masons Monday night, after which
the members of the lodge enjoyed a

NOW WANT AGUINALDO

Senator Carmack Believes He Should
Be Allowed to Testify.

SUPPRESSING FACTS

Senator Culberson Produces a Letter
from the Secretary of War Which
He Says Supports Charges
Made by Mr. Carmack.

Washington, May 2.—Aguinaldo was
the special subject of discussion in the
senate Thursday. As soon as the Phil-
ippine government bill was taken up,
Mr. Carmack of Tennessee resumed
his criticism of the Philippines com-
mittee because of its refusal to call
Aguinaldo and other Filipinos as wit-
nesses. He maintained that as reflec-
tions by witnesses had been cast on
the character of Aguinaldo, he ought
to be permitted "in all decency" to
defend himself.

Mr. Carmack's position was sharply
combated by Mr. Foraker of Ohio, Mr.
McComas of Maryland and Mr. Burton
of Kansas.

Mr. Culberson of Texas, in support
of a statement by Mr. McCarmack that
the war department suppressed infor-
mation and falsified the Philippines
situation, presented a letter from the
secretary of war, which he thought
was proof of the Tennessee senator's
assertion. The secretary stated in the
letter that it was not practicable to
supply the information asked for, be-
cause no special account was kept of
the Philippines war expenses, and it
would require the services of a large
force of clerks to work out the infor-
mation desired.

At the conclusion of routine busi-
ness, the resolution offered by Mr. Cul-
berson of Texas calling for information
with reference to recent orders issued
in the Philippines was adopted.

In the house Mr. Shattuck of Ohio
spoke on industrial conditions and Mr.
Gaines of Tennessee, in criticism of
conditions in the Philippines. The Dis-
trict of Columbia appropriation bill
was under consideration.

Rev. Dr. Couden, the blind chaplain
of the house, in his invocation prayed
for the restoration to health of Repre-
sentative Cummings of New York,
who is lying dangerously ill at Balti-
more.

The Burleson resolution calling on
the war department for copies of all
orders to commanding officers in the
Philippines bearing upon the opera-
tions in Samar under General Jacob H.
Smith, was adopted. A somewhat simi-
lar resolution offered by Representa-
tive Conroy of Massachusetts was laid
on the table.

A resolution was adopted which
called on the civil service commission
for information regarding appoint-
ments, etc.

Bills were passed for the removal of
the port of entry in the Albemarle
(North Carolina) collection district
from Edenton to Elizabeth.

To authorize the United States and
West Indian Railroad company to
build a bridge across the Manatee
river, Florida.

To provide that third and fourth-
class mail matter without sufficient
postage shall not be remailed to the
sender.

Oppose School Land Sale.

Brenham, Tex., May 2.—E. Reichardt
of this city is circulating a petition
to be presented to the county commis-
sioners' court objecting to the sale of
the Washington county school lands.
A large number of business men of
Brenham and numerous taxpayers of
the county outside of Brenham have
signed the petition. There are 17,000
acres of land in the tract in a solid
body located in Tom Green county. The
court has an offer of \$2 an acre for
the land, which brought forth this
protest on the part of the people.

Another Courtmartial Ordered.

Washington, May 2.—Following the
precedent set in the case of General
Smith, the president has himself,
through Secretary Root, ordered the
trial by courtmartial of Major Edwin
F. Glenn, Fifth infantry, one of the
officers referred to as a participant in
the testimony developed before the
senate Philippines committee recently.

A Minister Assaulted.

Crawford, Tex., May 2.—Rev. S. P.
Brown of the Methodist Episcopal
church, south, at Crawford, was as-
saulted here by a saloon man for re-
porting to the United States and state
revenue officers that he was doing
business without license. Rev. Brown
is badly bruised on the face and chest.
The courts will investigate the case.

Chicago Crew Pardoned.

Rome, May 2.—The king has pardon-
ed the officers of the United States
cruiser Chicago who have been im-
prisoned at Venice. They will be im-
mediately handed over to the United
States consul, from whose charge they
will be transferred to the Chicago,
which is ready to sail.

Hail Storm in Oklahoma.

Guthrie, O. T., May 2.—A terrible
hail storm has visited western Okla-
homa and great havoc was wrought in
its path. The scope of the storm was
at Pond creek, covered a wide area.
Wheat and fruit were greatly dam-
aged.

Resignation of Rummel.

Washington, May 2.—Henry L. Rum-
mel of Little Rock has resigned as col-
lector of internal revenue of Arkan-
sas and will be succeeded by F. W.
Tucker. Mr. Rummel is the chair-
man of the Republican state central
committee.

MEN'S OUTFITTERS.

DEATH OF R. H. SMITH.

After an illness of about two weeks from typhoid pneumonia, Mr. R. H. Smith died yesterday afternoon at 3 o'clock, at the residence of his brother-in-law, Capt. D. D. Dawson.

Mr. Smith was born in Wilcox county, Ala., Nov. 29, 1854, and was therefore 41 years and 5 months old. He came to Texas in 1871 and had made his home in Bryan since 1872. He was married to Miss Alice Stapleton in 1881, and his wife and two brothers and sisters survive him. The latter are W. N. Smith, of Cameron, T. B. Smith and Mrs. D. D. Dawson, of Bryan, and Mrs. P. B. Fillingame, now living in Alabama.

Mr. Smith was an officer in Bryan for many years, and when he became ill was employed as a train guard by the Wells Fargo express company. He was a Mason and a member of the Methodist church. Courteous, accommodating and faithful to his duty, he had a large circle of friends who unite in extending profound sympathy to the family.

The funeral will take place from the residence of Capt. Dawson at 4 o'clock this afternoon under the auspices of the Masonic fraternity.

A FIERCE BOUT.

Choynski Knocked Out Weing After Being Almost Defeated.

Louisville, May 3.—Al Weing of Buffalo was knocked out here by Joe Choynski, of Chicago, before the Empire Athletic club in the sixth round of one of the fiercest bouts ever witnessed in this city. Both men were forced to take a severe drubbing and Weing's defeat came after a display of gameness rarely equaled in the prize ring. Twice in the sixth round he was knocked to his knees by Choynski's hard rights and lefts to the jaw, but each time he came up ready for more punishment. He was too dazed, however, to defend himself and Choynski finally beat him down, landing him against the ropes, unable to move. It was several minutes before he was able to rise and even then he was badly dazed for when Choynski attempted to shake hands with him Weing squared off ready to continue fighting, unconscious that he had been counted out.

Prior to the sixth round, Weing seemed to have the best of the bout and in the third round the bell was all that saved Choynski from a knock-out.

COMBINE AGAINST PACKERS

Commission Men and Stock Men Will Keep Stock Off the Market.

Denver, May 3.—Not a single head of cattle was sold in the Denver market Friday, and the commission men almost without exception wired to their customers in all parts of the west not to ship a single head of cattle, hogs or sheep to the markets in this city, Kansas City, Omaha or Chicago. Commission men in other cities are understood to have taken similar action. Many thousands of head are on the way to market, and three or four days will pass before the effect of the order is felt, but at the beginning of next week it is thought little or no stock will be offered at these centers.

Commission men and stock owners say they have taken this radical action because of the decline in prices of stock, though the packers have raised prices on meats.

Injunction Against Packers.

Chicago, May 3.—The bill for injunction to restrain the meat packers from unlawfully conspiring to fix the price of beef has at last been completed by District Attorney Bethea and Lawyer William A. Day. Mr. Day left for Washington to lay before Attorney General Knox the document and the affidavit on which it is based. Mr. Bethea also left Chicago, ostensibly to go to New York and thence to Washington to attend the conference with Attorney General Knox.

Sons of American Revolution.

Washington, May 3.—A banquet at the New Willard hotel Friday night, attended by nearly 400 persons, brought the annual congress of the Sons of the American Revolution to a close. The event was made notable by the presence of President Roosevelt, who delivered a speech, paying special attention to the army and navy and the flag.

The society elected Edwin N. Warfield of Maryland, president.

Fell from Foot Board.

Fort Smith, Ark., May 3.—Tom Appleby, a switchman in the Frisco yards of this city, was fatally injured by being run over by an engine. He was riding on the footboard of an engine when he suddenly became unconscious and fell under the wheels. Both feet and one of his arms were crushed. Death ensued in three hours. It is thought his fall from the engine was due to dizziness caused by the incessant use of cigarettes.

Boy Accidentally Killed.

Bremont, Tex., May 3.—A boy, Hammond, about 15 years of age, accidentally shot himself near here. The boy was climbing a tree with a target rifle after a squirrel and the hammer caught something, causing the gun to fire, the ball striking the young man about the hip, ranging upward. He came down, walked home and told his mother and died a few hours afterward.

Cholera in the Philippines.

Manila, May 3.—The ports of Batangas and Laguna provinces have again been opened to trade, subject to the cholera regulations. The cholera statistics show a further increase in the spread of the disease. The record to Friday is as follows: Manila, 703 cases; 554 deaths. Provinces, 2000 cases; 1473 deaths.

Woman Convicted of Murder.

Paris, Tex., May 3.—Mrs. Mary Roberts, charged with complicity in the killing of her husband, "Uncle Jackie" Roberts, in this county near Maxey, a year ago, was found guilty of murder in the second degree in the district court and was given seven years in the penitentiary.

Three Distinct Tornadoes.

Dos Moines, May 3.—Three tornadoes simultaneously swept through three different counties in central Iowa Thursday night, resulting in serious injuries to 12 persons and over \$50,000 damage to property and growing crops.

Twenty-One Barges Lost

Memphis, May 3.—Owing to a mishap to the steamer J. B. Finley, from Pittsburg, near Friar's Point, Miss., 9 loaded coal barges and two other barges loaded with steel rails were sunk. The loss will be heavy.

Acquitted of Murder.

Corsicana, Tex., May 3.—The jury in the case of W. O. Rankin, charged with the murder of the Boyd, returned a verdict of not guilty.

THAT WATER CURE.

One Soldier Tells of It Being Administered to Filipinos.

Washington, May 3.—F. H. Hallock, of Boston, Mass., formerly sergeant and then private in company 1 Twenty-sixth volunteer infantry testified before senate committee on Philippines concerning the practice of the water cure in the Philippines.

Mr. Hallock told of the infliction of the water cure upon dozens of natives at the town of Leon, province of Panay. He said they were captured and tortured in order to secure information of the murder of Private O'Hearn, company 1, who had been not only killed, but roasted and otherwise tortured before death ensued.

He said Captain Glen in charge of the scouting party had first secured the confession participating in this crime by one native who had implicated 12 others. These witnesses, he said, were taken to Leon, where his company under the command of Captain Gregg was stationed, and there on the 21st and again on the 23d of August 1900, the cure was administered.

SAN JOSE SCALE.

The Lady Bug Will Be Used to Destroy That Disease.

Washington, May 3.—The department of agriculture is preparing to fight the ravages of the San Jose scale throughout the country with its natural enemy, the lady bug, brought from the interior of China. Assistant Botanist Mariat has just returned from the orient. He started home with a good supply of the lady bugs, but only 16 survived on his arrival in this country, and 14 of these subsequently died.

While not expecting the scales would be exterminated from this country, experts are planning to attack them with the increasing breed of their natural enemies.

She Sues for Damages.

New Orleans, May 3.—Miss Mamie Connolly, the prettiest shop girl in New Orleans and for that matter one of the handsomest women in the country, appeared in Judge Theard's division of the civil district court here as plaintiff in a suit for \$10,000 damages against Frank B. Moore, a leading photographer; A. B. Blakely, proprietor of the St. Charles hotel, and the Mobile and Ohio railroad. The basis of her suit is to be found in the alleged unauthorized use of her photograph, which had been taken by Moore in advertising matter issued by the defendant, the hotel and railroad companies. This photograph, so Miss Connolly claims, was furnished by Moore without her consent. Moore's defense is one which might well disarm her wrath. He states when application was made for the photograph of a "typical Creole girl" he selected that of Miss Connolly, because "it was the prettiest he knew anything about."

Kratz Escapes Extradition.

Washington, May 3.—The state department has been notified that the Mexican government has finally refused the application of the United States government for the surrender of Charles Kratz, ex-councilman of St. Louis, charged with bribery. The man has been held under arrest at Guadalupe, the Mexican government having consented to his provisional detention for eight days pending consideration of the request. An effort was made to secure the prosecution of Kratz in Mexico, but without avail, and under the decision just announced, he will be discharged and go unpunished.

Provisions of the Postponement.

Washington, May 3.—The postponement amendment for the Louisiana Purchase Exposition provides for the dedication of the buildings of the exposition on April 30, 1903, for the opening of the exposition to visitors on May 1, 1904, and for its closing not later than Dec. 1 following. The coinage of \$250,000 in gold dollar pieces to be used as a souvenir coin is also authorized, the money thus provided to be a part of the \$5,000,000 appropriated by congress for the aid of the fair.

A FIERCE BOUT.

Choynski Knocked Out Weing After Be-
ing Almost Defeated.

Louisville, May 3.—Al Weing of
Buffalo was knocked out here by Joe
Choynski, of Chicago, before the Em-
pire Athletic club in the sixth round
of one of the fiercest bouts ever wit-
nessed in this city. Both men were
forced to take a severe drubbing and
Weing's defeat came after a display
of gameness rarely equaled in the prize
ring. Twice in the sixth round he
was knocked to his knees by Choynski's
hard rights and lefts to the jaw, but
each time he came up ready for more
punishment. He was too dazed, however,
to defend himself and Choynski finally
beat him down, landing him against the
ropes, unable to move. It was several
minutes before he was able to rise and
even then he was badly dazed for when
Choynski attempted to shake hands with
him Weing squared off ready to continue
fighting, unconscious that he had been
counted out.

Prior to the sixth round, Weing
seemed to have the best of the bout
and in the third round the bell was all
that saved Choynski from a knock-out.

COMBINE AGAINST PACKERS

Commission Men and Stock Men Will
Keep Stock Off the Market.

Denver, May 3.—Not a single head
of cattle was sold in the Denver market
Friday, and the commission men
almost without exception wired to their
customers in all parts of the west not
to ship a single head of cattle, hogs or
sheep to the markets in this city, Kansas
City, Omaha or Chicago. Commission men
in other cities are understood to have taken
similar action. Many thousands of head
are on the way to market, and three or
four days will pass before the effect of the
order is felt, but at the beginning of next
week it is thought little or no stock will
be offered at these centers.

Commission men and stock owners
say they have taken this radical action
because of the decline in prices of stock,
though the packers have raised prices on
meats.

Injunction Against Packers.

Chicago, May 3.—The bill for in-
junction to restrain the meat packers from
unlawfully conspiring to fix the price of
beef has at last been completed by District
Attorney Bethea and Lawyer William A. Day.
Mr. Day left for Washington to lay before
Attorney General Knox the document and the
affidavit on which it is based. Mr. Bethea
also left Chicago, ostensibly to go to New
York and thence to Washington to attend
the conference with Attorney General Knox.

Sons of American Revolution.

Washington, May 3.—A banquet at the
New Willard hotel Friday night, attended
by nearly 400 persons, brought the annual
congress of the Sons of the American Revolution
to a close. The event was made notable by
the presence of President Roosevelt, who
delivered a speech, paying special attention
to the army and navy and the flag.

The society elected Edwin N. Warfield
of Maryland, president.

Fell from Foot Board.

Fort Smith, Ark., May 3.—Tom Appleby,
a switchman in the Frisco yards of this city,
was fatally injured by being run over by an
engine. He was riding on the footboard of an
engine when he suddenly became unconscious
and fell under the wheels. Both feet and one
of his arms were crushed. Death ensued in
three hours. It is thought his fall from the
engine was due to dizziness caused by the in-
cessant use of cigarettes.

Boy Accidentally Killed.

Bremond, Tex., May 3.—A boy, Ham-
mond, about 15 years of age, accidentally
shot himself near here. The boy was climbing
a tree with a target rifle after a squirrel and
the hammer caught something, causing the gun
to fire, the ball striking the young man about
the hip, ranging upward. He came down, walked
home and told his mother and died a few hours
afterward.

Cholera in the Philippines.

Manila, May 3.—The ports of Batangas
and Laguna provinces have again been
opened to trade, subject to the cholera regu-
lations. The cholera statistics show a further
increase in the spread of the disease. The record
to Friday is as follows: Manila, 703 cases;
554 deaths. Provinces, 2000 cases; 1473 deaths.

Woman Convicted of Murder.

Paris, Tex., May 3.—Mrs. Mary Roberts,
charged with complicity in the killing of her
husband, "Uncle Jackie" Roberts, in this county
near Maxey, a year ago, was found guilty of murder
in the second degree in the district court and
was given seven years in the penitentiary.

Three Distinct Tornadoes.

Des Moines, May 3.—Three tornadoes
simultaneously swept through three different
counties in central Iowa Thursday night,
resulting in serious injuries to 12 persons and
over \$50,000 damage to property and growing
crops.

Twenty-One Barges Lost

Memphis, May 3.—Owing to a mishap
to the steamer J. B. Finley, from Pittsburgh,
near Friar's Point, Miss., 9 loaded coal barges
and two other barges loaded with steel rails
were sunk. The loss will be heavy.

Acquitted of Murder.

Corsicana, Tex., May 3.—The jury in the
case of W. O. Rankin, charged with the murder
of Ike Boyd, returned a verdict of not guilty.

THAT WATER CURE.

One Soldier Tells of It Being Adminis-
tered to Filipinos.

Washington, May 3.—F. H. Hallock,
of Boston, Mass., formerly sergeant and then
private in company I Twenty-sixth volunteer
infantry testified before senate committee on
Philippines concerning the practice of the water
cure in the Philippines.

Mr. Hallock told of the infliction of the
water cure upon dozens of natives at the town
of Leon, province of Panay. He said they were
captured and tortured in order to secure in-
formation of the murder of Private O'Hearn,
company I, who had been not only killed, but
roasted and otherwise tortured before death
ensued.

He said Captain Glen in charge of the
scouting party had first secured the confession
participating in this crime by one native who
had implicated 12 others. These witnesses, he
said, were taken to Leon, where his company
under the command of Captain Gregg was
stationed, and there on the 23d of August
1900, the cure was administered.

SAN JOSE SCALE.

The Lady Bug Will Be Used to Destroy
That Disease.

Washington, May 3.—The department
of agriculture is preparing to fight the ravages
of the San Jose scale throughout the country
with its natural enemy, the lady bug, brought
from the interior of China. Assistant Botanist
Marlat has just returned from the orient. He
started home with a good supply of the lady
bugs, but only 16 survived on his arrival in this
country, and 14 of these subsequently died.

While not expecting the scales would be
exterminated from this country, experts are
planning to attack them with the increasing
breed of their natural enemies.

She Sues for Damages.

New Orleans, May 3.—Miss Mamie Conolly,
the prettiest shop girl in New Orleans and for
that matter one of the handsomest women in the
country, appeared in Judge Theard's division
of the civil district court here as plaintiff in a
suit for \$10,000 damages against Frank B. Moore,
a leading photographer; A. B. Blakely, proprietor
of the St. Charles hotel, and the Mobile and Ohio
railroad. The basis of her suit is to be found in
the alleged unauthorized use of her photograph,
which had been taken by Moore in advertising
matter issued by the defendant, the hotel and
railroad companies. This photograph, so Miss
Conolly claims, was furnished by Moore without
her consent. Moore's defense is one which might
well disarm her wrath. He states when applica-
tion was made for the photograph of a "typical
Creole girl" he selected that of Miss Conolly,
because "it was the prettiest he knew anything
about."

Kratz Escapes Extradition.

Washington, May 3.—The state department
has been notified that the Mexican government
has finally refused the application of the United
States government for the surrender of Charles
Kratz, ex-councilman of St. Louis, charged with
bribery. The man has been held under arrest at
Guadalupe, the Mexican government having con-
sented to his provisional detention for eight days
pending consideration of the request. An effort
was made to secure the prosecution of Kratz in
Mexico, but without avail, and under the decision
just announced, he will be discharged and go
unpunished.

Provisions of the Postponement.

Washington, May 3.—The postponement
amendment for the Louisiana Purchase Exposition
provides for the dedication of the buildings of the
exposition on April 30, 1903, for the opening of
the exposition to visitors on May 1, 1904, and for
its closing not later than Dec. 1 following. The
coinage of \$250,000 in gold dollar pieces to be
used as a souvenir coin is also authorized, the
money thus provided to be a part of the \$5,000,000
appropriated by congress for the aid of the fair.
